

SurfSolo Anonymous Web Surfing

SurfSolo creates an encrypted virtual tunnel between your computer and one of our high bandwidth security proxy servers. This tunnel shields you from the most sophisticated methods of online spying and snooping, ensuring you of completely anonymous web surfing.

SurfSolo is like the secure VPNs (Virtual Private Networks) that corporations use, but designed for personal use. SurfSolo anonymous web browsing is simple to set up and use, and works silently in the background. The internet connection is only slowed down minimally (depending on your internet connection and number of nodes between your computer and our servers).

Features of SurfSolo:

- ✔ SurfSolo allows anonymous surfing by obscuring the location of your computer as well as your Internet IP address
- ✔ SurfSolo, is a secure Tunneling SSH2 Service: This powerful encryption technology runs silently and effortlessly in the background whenever you're online, encrypting all transmissions to and from your computer
- ✔ Powerful AES-256 encryption makes all your internet traffic your private issue
- ✔ Secure & Private Email Account: Lets you send and receive messages safely, privately and anonymously. By using the secure e-mail address you will receive, your IP-address WILL NOT BE VISIBLE, you will just appear as 'localhost' plus the privacy server's IP
- ✔ Secure & Private Newsgroup Access:
Allows safe and private newsgroup posting and reading
- ✔ Secure & Private Instant Messaging & Chat:
Automatically protect your chat activity and existing IM accounts
- ✔ P2P capable!
- ✔ Nobody will have a clue who and where you are
- ✔ No activity logs kept
- ✔ Ultra high bandwidth proxies provide incredibly fast anonymous surfing
